The Manchester Guardian, in its commercial article, says: Sellers make slow progress at Friday's rates, which are steadily adhered today, the ten-dency, however, is in favor of buyers. The market at best was only fairly steady. Yarns are weak and the pressure to sell growing daily. Export varus are in poor demand. Buyers are able to make better terms than at the cless of last week. For home yarns there is little inquiry, while the supply is large. The coth market is quiet but firm. Occasionally sellers, who have been looking for higher prices, become convinced the tendency is against them and offers that were is against them and offers that were refused Friday are now accepted. Individual sales aggregate a fair amount. India and China buying has been small. The fall in exchange has now been sufficiently covered by the rise in silver in the East. Shirtings are dull, with a slow demand. Although there has been a number of orders for the finer fancy India fabrics, only a small proportion of them can be filled. Printing and other finishing cloths are steady, with slow demand at current is against them and offers that were steady, with slow demand at current rates. The market for heavy goods is quiet. Sales small and prices steady.

A Druggist's Story.

Mr. Isaac C. Chapman, druggist, Newburg, N. Y., writes us: "I have for the past ten years sold several gross of Dr. William Hall's Balsam for the Lungs. I can say of it what I cannot say of any other medicine, I have never heard a customer speak of it but to praise its virtues in the high-est manner. I have recommended it in a great many cases of whooping cough, with the happiest effects. I have used it in my own family for many years; in fact, always have a bottle in the medicine closet ready for use."

Mulford, Jeweler, 294 Main, so-licits orders from the country.

They Are Not Sorry.

There is one thing nobody ever regrets—that is, the day they first adopt ed Parker's Tonic as their regular family medicine. Its range is so wide and its good offects so sure, that nothing also event good parains, and ing else, except good nursing, an needed in a great majority of cases. Buy it, try it, and afterward it will not require any praise rom us.

The westing diseases of infants and children are by no means confided to an insufficient supply of food. The trouble is that the food is injudiciously selected, and the limited digistive power of the child is unable to assimilate it. Mellin's food, when prepared according to the directions, forms the best substitute for mother's milk that has ever been produced. milk that has ever been pro luced.

ELY'S CREAM BALM WAST, commended to me by my draggist as a preventa-tive to hay fever. Have been using it as directed since the 9th of August and have found it a specific for that much deaded and lostboome disease. For deaded and loathsome disease. For ten years or more I have been a great sufferer each year, from August 9th till frost, and have tried many alleged remedies for its cure, but Ely's Oream Baim is the only preventative I have ever found. Hay fever sufferers ought to know of its efficacy.

Forty Years a Sufferer from

WONDERFUL TO RELATE

"FOR FORTY YEARS I have been a victim to UATARRH—three-fourths of the time a authorer from EXORUCIATING PAINS ACROSS MY FOREHEAD AND MY NOSTRILS. The discharges were so offensive that I hesitate to mention it, except for the good it may do some other sufferer. I have spent a young fortune from my earnings during my forty years of suffering to obtain relief from the doctors. I have tried patent medicines—avery one I could learn of—from the four corners of the sarth, with no relief. And AT LAST (57 years of age) have met with a remedy that has cured me entirely—made me a new man. I weighed 128 pounds, and new weigh 146. I used thirteen bottles of the medicine, and the only regrat I have is, that being in the humble walks of life I may not have influence to prevail on all eaters the sufferers to use what has cured my—Guinn's Ploneer Blood Renewer.
